Your Questions Answered

In this column, Managing Director and best selling author, John Haines answers some client questions. If you have a question you'd like answered in an upcoming issue, please tell us at: info@aplgroup.com.au

Q. Will Australian First Aid still be offering the same services?

A. Definitely! As Australia's first recognised for-profit first aid provider to specialise in tailored courses to suit our client's needs at a local, state and national level, we actually intend to improve our services and remain the genuine leader in this field. Our highly experienced executive and administration staff are also still with us, some for over 20 years. This level of experience flows to all group members at the APL Group.

Q. Is it true that AED is now a part of CPR training?

A. Yes, but only basic training in attaching the AED to a patient and following the AED unit's prompts.

Regards JH
